## WAGE SYSTEM TO PASS AWAY

Profit Sharing Method Will Soon Be in Use in All Concerns:

## ALL WILL FIND THEIR OWN LEVEL

Carroll D. Wright Says Those Who Show Ability Will Now Advance, But Others Will Suffer No Injury by the Move.

Philadelphia, Dec. 14.—"The wage system will pass away. In its stead, I believe, there will come a system which will be composed of the profit-sharing and the co-operation ideas. The great labor question means the struggle of humanity for a higher standard of life. The employer must consider his employee, as well as the stockholder, as an investor."

These words were contained in an address upon "The Wage Question," made by Carroll D. Wright, United States commissioner of labor, before the Society of Ethical Culture of this city.

Of scarcely less interest than his prediction of a new labor system was Mr. Wright's approval of a plan to insure labor against incapacity resulting from accident, illness, or advancing age. The German idea was quoted, under which the employer pays one-fourth the cost of a sick and death benefit policy, the employee one-fourth and the government one-half.

### Must Be Considered.

"England," said Mr. Wright, "has taken up this question, and we of the United States are steadily approaching it."

"Capital charges to the consumer the depreciation of property and machinery. Why should not the depreciation of labor's machinery, its hands, its brains, its body, be included in the final cost?"

## JAPAN WARSHIPS PAINTED BLACK

Fleet Passed Port Arthur While Engaged in Target Practice.

London, Dec. 14.—The London Daily Telegraph this morning prints a dispatch from its Port Arthur correspondent stating that a Japanese fleet of warships passed there yesterday painted black. The vessels, according to the dispatch, were engaged in target practice and were expending a large amount of powder in increasing the efficiency of their gunners.

The correspondent says that Japan is held very cheap by the residents of Port Arthur, who declare that Russia would have little trouble in defeating the forces of the mikado.

As a result of the war agitation business is at a standstill and commercial interests are on the verge of bankruptcy.

## PAPAL LIBRARIAN FINDS A FORTUNE

Discovers \$20,000 in Italian Currency Between Pages of Pope's Book.

Rome, Dec. 14.—While the papal librarian was examining a number of the books that had been the subject of close study by the late Pope Leo, he found a number of certificates between the pages of one of the largest volumes. Investigation showed them to be Italian currency, and their total value footed up \$20,000. The money was turned over to Pope Plus X, and by him transferred to the Vatican treasurer.

### STATE NOTES

Herring fishing in the Apostle islands, Lake Superior, closed yesterday. The catch has been large. A tug was pulling up one of the large nets a heavy sea caused it to lurch and John Olson fell overboard and sank instantly. His body could not be recovered.

The Wisconsin Development association, an organization formed at Marshfield some months ago by real estate men of northern Wisconsin, is out of existence. Lack of harmony among funds is said to be the cause of its disruption.

The right-of-way man for the Green Bay & Madison railway has secured an option on several pieces of land in Appleton where the Appleton depot will probably be located. This means that the road is a sure thing.

Probably a fatal accident befell William Venzeloff, a youth of 18, at Cooperstown, in which an arm was completely pulled from its socket and hacked in a clover puller and separator.

Daniel Breen, the mate who shot the two Leonidas men on the steamer Dubuque at La Crosse, a year ago is stricken with paralysis, but it is expected he will recover.

The body of a male child was found in a gully about a block from the Riverside hotel at Wausau. Its mother is said to be a young woman who is employed as a cook.

## MANY ESCAPED DEATH

### FIRE BROKE OUT NEAR AUDITORIUM ANNEX

No Lives Were Lost, Although Many Narrow Escapes Were Recorded... Hotel Guests Were Disturbed by the Smoke and Noise.

Chicago, Ill., Dec. 14.—What per-in which the Annex hotel is quartered much excitement was experienced. The greatest holocaust that Chicago has spread rapidly and the women employees finally marshaled the frightened guests, who were narrowly averted at places awoke to find their rooms and women into an orderly retreat. The coolness of employees and firemen jump from the windows while others in the building and all succeeded in escaping. The flames were first discovered by employees of the hotel adjoining the Auditorium Annex and the hotel proper were aroused and building.

## FATAL WRECKS ON RAILROADS

### FIVE ARE KILLED ON THE BURLINGTON LINE.

## CHILDREN BURN TO DEATH

### Death Scene of the Little Ones Badly Witnessed by Workmen.

Albia, Ia., Dec. 14.—Five persons were killed and ten injured in a wreck on the Chicago, Burlington and Quincy road, three miles west of here.

The westbound passenger train was in some manner derailed while running on to the Cedar-creek bridge, and five cars were wrecked by a collision with the steel girders of the bridge. The wreckage immediately took fire, and several of the victims were badly burned.

The dead: Thomas Beatty, Franklin, Mrs. W. E. Mitchell, Albia, Ia.; Mildred Mitchell, Albia, Ia., and an unknown man.

The injured: Gabriel Allen, Chicago; C. E. Blair, Albia, Ia.; William Branch, Chicago; F. T. Browning, Center, Kas.; Robert Ferguson, Mitchell, Neb.; W. P. Martin, Chicago; R. Price, Chicago; Mrs. J. H. Robinson, Ottumwa, Ia.; E. T. Scott, Osceola, Ia.; S. T. Williams, Chicago.

See Child Cremated.

Memphis, Tenn., Dec. 14.—Policeman John C. King while wearing a mask shot and fatally wounded H. J. Kressenber, a member of the city Democratic committee, and a little later killed himself. Kressenber, accompanied by his wife, left his store about midnight and a moment later was shot twice by a man wearing a handkerchief over his face. Kressenber fell, but shot his fleeing assailant in the leg. After running two blocks the latter fell exhausted and fired a bullet into his brain. It was then discovered that the masked man was King, a member of the local police force. No cause is known for King's attack on Kressenber.

### SHOT BY A MASKED POLICEMAN

Memphis Politician Is Wounded, But Assailant Kills Himself.

## MARION MARNE'S INTERESTING LETTER CONCERNING DRESS

Black Silk Frocks Are Again Popular--Doom of the Wool Tailor Made Suits Is Sounded.

The coming season is to be a silk season. The decree has gone forth both in Paris and New York that in the near future fashions are to strike out in quite a new direction, and the doom of the severe tailor-made is at hand.

"And why not?" say our best modistes. "Should we not be shortsighted indeed not to appreciate the exquisite, and at the same time substantial silks that are emerging from our looms--softer, richer and far more supple than of yore."

Colors in silks will be clear and decided, and plain, shot, striped, checkered and plaided will be in great demand, while black will predomi-

nated. The graduated blouse overlapped with violet embroidered lace, and headed with bands of violet velvet ribbon. Loose fronts in waists are still the rule, and as the prevailing style of dress is always responsible for the cut of the corset, there will be no immediate radical change in corset styles, although manufacturers of the best corsets, such as the C B la Sprite, have always their ears to the ground for any warning sound of change.

Ostrich feathers have more than their usual popularity, and the color schemes are very daring. They are shaded in soft-colors and ombre effects. In addition to the long plumed

skirt, black Peau Dor being responsible for many of the most beautiful costumes for evening and day wear.

The Peau Dor visiting gown on the right in my illustration is one of the latest smart costumes. Simple in effect, with its matty blouse, opening over a dainty separate waist, its black velvet with two short black ostrich tips fastened with rhinestone ornaments, worn at a concert was immensely smart, and quite novel in design.

The 1830 modes prevail in the fur world as elsewhere in fashion's realm. Moleskin promises to be soon relegated to a place among the passing styles, but Chinchilla has taken rank among the elect few that may be bought without fear that it will be out of fashion in another season.

The other costume, which looks as though it might have been inherited from a grandmother was made for a popular debutante, and is composed of blues peau de crepe, with a deep shoulder cape, angel sleeve and

## LOCAL DEALERS MADE BIG SALES

Frank S. Baines and George Rumill, Sold Considerable Tobacco

Last Week.

The approaching holiday season is already having a depressing effect upon the tobacco trade and very little is happening to break the monotony of dull times all along the line of the tobacco business. In the absence of easing weather nothing can be done towards preparing the new crop for market, so the buying movement is held in abeyance.

Old leaf is moving sparingly with an occasional sale from first hands. Gregerson & Daiby sold 1,000 of '02 to O. R. Pomeroy and A. O. Anderson 200s to W. H. Parish. McIntosh Bros. have purchased between 400 and 500 cases of '01 and '02 goods from local packers in small lots during the week. Geo. Rumill reports the sale of 290 cases of '02 and a 58 case lot of 1900 leaf and F. S. Baines 220 cases for the past week. Julius Marquise has been looking up business matters in the state during the week.

The shipments out of Edgerton storage amount to 13 car loads, 655 cases, to all points for the week.

New York

The market continues active in an exceptional degree in spite of the nearness of the end of the year. The last month of the year is generally attached to them not to be shipped until after the new year. The remarkable exception this year may be ascribed not only to the uninterrupted activity of our cigar industry but more so perhaps to the shortage of certain types of leaf, the effects of which are making themselves felt right along. For two years the cigar industry tried to get along without the proper binder leaf but it has come to the rope's end, and finding the 1902 Wisconsin crop available, it is filling up not only a shortage but trying to guard itself against being caught again short by laying in a supply for future emergencies. The same policy, and it is the right and wise one, is being pursued in regard to Havana. Hence the unexpected spectacle of many out of town buyers roaming around our market at this time of the year.

Virginia

Three hundred tobacco growers met last week at Norfolk, (Va.), and formed an organization which will be known as the Tobacco Growers Organization of Virginia and North Carolina. Those present represented eleven counties in the two states.

The object of the Association is to curtail the acreage of tobacco, to assist in holding the present crop, and start a movement to induce farmers to grow diversified crops.

## LABOR TALK FOR WORKMEN

Gossip From All Over.

Organized warfare against the union label, the eight-hour bill pending in congress, the boycott, the "socialism" tyranny and lawless violence of labor unions, sympathetic strikes and the "closed" shop, found expression in resolutions adopted by the executive committee of the City America, which met in Dayton, Ohio, recently. This is the powerful association of employers recently organized by D. M. Parry and Frederick W. Job of Chicago. It now invites all the employers in the United States to form local branches that shall be affiliate with a national body in a Titanic struggle against unwarranted demands of union labor in every branch of business. One resolution adopted by the executive committee urges members not to place the union label on goods they manufacture. Another attacks the eight-hour bill. Another provides for the formation of a labor information bureau that shall have a practical blacklist of union men who resort to lawlessness or anarchy and are undesirable workmen. The time for holding the first convention of the organization was fixed for Feb. 22 and 23 at Indianapolis, where the permanent headquarters have been established and where also will be located the department of organization and publication. The committee held its meeting behind closed doors and took action looking to the establishment of an association in every city in the United States. It is announced that it is not the intention to fight labor unions, but to meet them fairly on all questions of difference.

President Samuel Gompers, of the American Federation of Labor, has been asked to come to Pittsburgh to settle a trade strike. The request was made by forty-eight lodges of the International Brotherhood of Boiler Makers and Shipbuilders, who are at present holding a meeting in Pittsburgh to right alleged wrongs committed by their International officers. The delegates to said

base their complaints principally upon the fact that the international officers declared a \$2 special strike assessment without having it voted upon by the referendum, as the law

of the union demands.

Work on building valued at \$20,000,000 now under construction in ten of the largest cities of the country will probably soon be stopped by a strike of the International Bridge and Structural Iron Workers' Union against the George A. Fuller Construction Company and the Iron League of New York.

The Builders and Traders' Exchange of Columbus, Ohio, has decided to make an open fight against organized labor. It has instructed its attorney to prepare a suit against the city council and city officials to enjoin discrimination in favor of union men. Members of the union, say that they will carry it to the court of the last appeal to settle the question forever.

## JUDGE EMIL BAENSCH

Friday the Gazette published an abridged announcement of the candidacy of Judge Emil Baensch for the nomination of governor of the republican party next summer. From the present outlook the state convention will be held in May next and the time for the preliminary campaign is not so long as it might possibly be. Judge Baensch's statement is filled the conservative ideas that have always been credited to the Manitowoc statesman. He is clear and concise and no republican in the state no matter how much he may be opposed to or in favor of the present state executive can take offence at the platform he announces his candidacy to stand on. He says truly that any primary law should come as the result of an evolution, not a revolution, and that to accomplish the best results slow but sure steps must be taken. This is taken to mean that to reach the goal, so eagerly sought after by many, it is best to experiment with the different steps so that no mistakes may be made. For any man to make an announcement on an informal call from citizens of the state for the nomination of Governor is a difficult step. This faction ridden state has much to discourage the average politician from putting his strength against a machine well oiled with money and complete in every part, but Judge Baensch has taken the wise course and his announcement is full of common sense that should be thoroughly digested before the spring primaries and should land him the nomination. The announcement does not criticize the present state administration nor does it uphold it. It states the aspirant's position on questions in a clear, concise manner. He offers himself as the candidate for the nomination of Governor of the state of Wisconsin as is the right of every citizen and he lays down his own ideas of matters and issues that men may decide. He is not, as he says, the candidate of any faction and it may be added nor against any faction. It is for harmony and concord that he has appealed upon the political horizon. For purity in proposed reforms and for broad-mindedness in dealing with men and public matters, it is a platform upon which all republicans can unite that unity and peace be restored in the Grand Old party.

Senator Hoar is having a hard time with Roosevelt. Hoar is like an old grandmother trying to influence her full grown grandson to the ways of his grandfathers without consideration of the present condition of affairs.

Senator Hanna still holds control of the national republican machine and holds it well. Roosevelt would do well if he could retain the old and council of this premier of advisors.

Professor Robertson has not bathed for two years and says it is the ideal way to live. Janesville recently had a happy hobo who had not bathed for ten years and he thought the same way.

It is generally understood that the Janesville actress wounded by the Imperial Austrian princess is still suffering from the wound she did not receive.

Hanna says Missouri is helplessly in the hands of Democracy and the Missouri gentlemen who answered him said not—that the World's fair had it now.

Poor Senator Morgan still thinks he is much abused and that Cuba should not accept reciprocity from Uncle Sam.

A fly was discovered in the private parts of Queen Alexandra. Is she using gasoline this

season or not.

It is to be hoped Japan can control war dogs until the man with the camera arrives ready for the reports for the yellow journals of the country.

Mr. Morgan of the great Wall street fame should see all his friends before he tells another story so as to have all points fixed up beforehand.

Those Englishmen who have gone to Japan to learn the language had best beware of the Gelsia maledicta of the land of the rising sun.

President Castro has stepped into the breach between Colombia and Uncle Samuel and Uncle Samuel should be very glad.

Senator Clark had an operation performed upon his ear. If it does not suit him he can buy a new one cheap.

Next June 21st General Teddy will be nominated for the exalted position of president of the United States.

It is not far from Lieutenant Governor to Governor and Emil Baensch has all the qualifications for the Governorship.

If one can not use the bath-tub these cold days it might help heat the house.

No doubt some literary men firmly believe that Herbert Spencer is not as great as he might have been, had he lived a century ago.

Perhaps President Harper may be disappointed when it comes to counting up the presents Christmas morning.

Evidently Chicago means business when it goes after Andy Craig and his straw ballbonds.

Panama will gladly hold Uncle Samuel's coat while it spansks naughty little Colombia.

Colombia might lick a few of Uncle Sam's stamps if it is really very mad.

Porto Rico ask for a place upon the national republican committee. Why not?

Fifty fine steel engravings of Geo. Washington for a dollar?

Chicago and her "I Will" won out again in the convention fight.

Japan and Russia seem to be getting nearer and nearer together.

## PRESS COMMENT.

Washington Post: Nineteen lives were lost on the football fields in 1903. This is eighteen more deaths than resulted from the Panama revolution.

New York Tribune: Quite a touching picture was conjured up by Sir William Crooke and Sir Edward Fry before the London water arbitration board. A cubic centimeter of pure water, said Sir William, might contain 10,000 microbes. "And those microbes might all be friends?" inquired Sir Edward Fry sentimentally. "Yes," said Sir William, "all friendly microbes. Most of them are policemen."

Louisville Courier-Journal: The University of Chicago has delivered itself of an essay "On a Formula for Determining the Weight of the Central Nervous System of the Frog From the Weight and Length of Its Entire Body." No wonder Dr. Harmer is clamoring for the preparatory schools to re-levitate the universities of two years of their work.

Chicago Chronicle: Dowle is a typical socialist in some things. The bullying deportment which he maintains over his followers and victims is the very essence of socialism. Individuality is surrendered at the portals of Zion. Collectivism prevails in everything except that Dowle himself is not bound by it.

Milwaukee Sentinel: Colorado is pursuing a plan that can safely be recommended to other South American and West Indian countries. She keeps her standing army on paper, and thus avoids the keeping of a payroll.

Omaha Bee: Senator F. C. Parker wants to make the tariff the over-riding issue in the presidential campaign of 1904, but paramount issues cannot be ordained by statesmen or politicians. They are created by conditions that prevail in the time of the campaign, and impress themselves most vividly on the popular mind.

Extra Labor for School Teachers. A country school district advertises for a school marm with three children of her own. The pleasant task of the school teacher loses some of its charms when they have to assume the work of producing the children also.

## TWENTY-TWO BELOW ZERO

WEATHER MADE COAL MEN AND  
PLUMBERS GLAD,

### MILK-MEN'S CANS FROZE

Troubles with Water-Pipes in All  
Parts of the City—Strange  
Phenomenon at Jail.

In the twenty-four hours preceding the snow-storm of Saturday morning the mercury took a remarkable plunge from 30 above zero to 22 below. Thermometers varied of course and some registered as low as 25, while others refused to sink below sixteen. Harry O. George, plumber, says that he read ten of them while on his way to relieve the distressed at seven o'clock Sunday morning and that in nearly every instance they registered twenty-two. It was ten below at eleven o'clock Sunday forenoon and fourteen below early this morning.

**Harvest for Plumbers**  
The plumbers' telephone bells began to ring at an early hour Sunday morning and in most instances there was an intermittent jangle all day long. Pipes froze the most unexpected places—somewhat when they were in the immediate neighborhood of hot water coils. Alderman Edward Schmidley was one of the first to suffer. A pipe burst in the bath-room of his house and the water did considerable damage before it was discovered.

**Few Lodgers at Jail**

Landlord Phillips prepared for a record-breaking guest-list at the city lock-up Saturday night but only a solitary lodger appeared to claim his hospitality. This man was in an intoxicated condition and was making for the train when overhauled. He was the only man in Janesville who had the temerity to get drunk on this cruel cold night—and he didn't belong here and was trying his best to get away.

**Milkmen's Troubles**  
Throughout the day the druggists were kept almost as busy as the plumbers. Men with frozen ears by force of habit made for the nearest pharmacy where they might first be thawed out and then given an opportunity to talk it over. Some were willing to say under oath, as well as with many of them, that it was the coldest day since '88, while others, whose ears had not been frostbitten, there was a spell just like it in '96. The milkmen had a hard time of it, and most of them found it necessary to thaw out the cans several times before they had completed their rounds.

### REV. OLSON HAS THE SMALL-POX

Former Janesville Young Man Removed to Isolation Hospital in Milwaukee Saturday Night.

Rev. Charles M. Olson, assistant priest of the Holy Rosary church, Milwaukee, was taken to the isolation hospital Saturday, suffering from smallpox. Father Olson believes he contracted the disease from Francis Higgins, a pupil at the parochial school, who was taken ill and sent to the isolation hospital last week. There are 375 pupils in the school, many of whom were exposed through Higgins. They have all been vaccinated, but the health department is watching developments with some anxiety. Father Olson is well known in Janesville, having lived here as a young man. He gave his first mass in St. Mary's church.

### ROBERT SCOTT WAS CHOSEN COMMANDER

W. H. Sargent Post of the Grand Army Elects its Officers for the Ensuing Year.

W. H. Sargent Post, No. 20, has elected the following officers for the ensuing year:

Robert Scott—commander.

George Viney—junior vice.  
J. L. Bear—quartermaster.  
W. V. Morrison—chaplain.  
C. J. Schottle—officer of the day.  
C. Cochertman—surgeon.  
George Phelps—first delegate.  
C. Cochertman—second delegate.  
M. Monroe—first alternate.  
C. T. Shepard—second alternate.  
C. E. Scottle—trustee for 3 years.

**Lather's Child**  
Death came to the 11-year-old son of Mr. and Mrs. William Lathers of the town of Turtle yesterday morning, of croup. Mrs. Lathers will be remembered as a daughter of Mr. and Mrs. J. C. Roessling, South Main street. Notice of the funeral later.

**Mrs. Margaret McCue**  
Funeral services over the remains of the late Mrs. Margaret McCue were held this morning from St. Patrick's church at 9:30 o'clock. There was a large attendance of sympathizing friends and relatives. The floral offerings were many and beautiful. The pallbearers were Michael Birmingham, Timothy McKiernan, George Cullen, Thomas Murray, John Birmingham and Michael Minahan. The interment was at Mt. Olivet cemetery.

**El Capitan at Beloit**  
The Grau Opera Co. will present the opera, "El Capitan" at Beloit on Tuesday, Dec. 15th; 35 people in the cast. Beautiful costumes; catchy music; pretty girls. Don't forget, Dec. 15th at Beloit.

### ON NEW RURAL MAIL ROUTES

#### FOUR RECENTLY APPOINTED CARRIERS TO START TOMORROW.

#### CITY CARRIERS WERE DELAYED

By the Big Storm Saturday, and Most of the Residence Districts Had But One Delivery—8 Hour Rule.

Four new rural delivery carriers will start on their respective routes tomorrow morning. Route No. 5 going north from the postoffice to Western avenue, thence west along the Footville road to Gooch corner, etc., will be in charge of Charles L. Ormsby, with Max Ormsby as substitute.

Routes Nos. 2 & 3

Route No. 2, going east, southeast and east to the city line on the Rooney road, etc., will be in charge of Millard F. Ide and Millard F. Ide, Jr., substitute. Route No. 3, going east, southeast and east on the Dela-ven road to the city line, etc., will be in charge of Hendrick A. Palmer with Mary A. Palmer as substitute.

#### Remarkable Record

Gordon B. Randall and Mason Randall will have charge of Route No. 8 running north across the river and north on the Milton Junction road. Carrier Bailey, who had charge of the old Route No. 2, is not only a remarkable revolver shot but held the record for carrying more mail than any other rural delivery man in this country.

#### Snow Hindered Work

Owing to the snow-storm Saturday the city carriers in the residence districts were unable to make two deliveries. The government permits them to work eight hours only and even commencing at six o'clock in the morning few were able to complete their work and the first run before noon. The Christmas season means additional work for all.

**Fire Laddies Had a Long and Cold Run on Sunday Morning**

at 10:15.

Yesterday morning at 10:15 o'clock an alarm of fire was turned in from box 131 located at the corner of Washington street and Magnolia avenue, calling the department to the residence of Mrs. Randall on Magnolia avenue. When the department arrived the fire was out. A defective chimney burned out. No damage was done. It was a long and cold run for the department, but they reached the scene in quick time. It was fully a two-mile run.

## Coming Attractions.

### "THE BEAUTY DOCTOR"

"The Beauty Doctor," the big musical comedy success by Herbert Kerr and Howard M. Shelley, produced by Fred. E. Wright with a company of 60 people, will be seen at the Meyers Grand next Thursday.

As its name implies, the comedy is a satire on the beauty culture craze, a theme hitherto unexploited on the boards, all of which have been amply developed by the authors.

Bouncing Julia, de la Creme, the beauty doctor, is a woman of much worldly experience, and also possesses a full knowledge of all the vanities of the human race. Hoping to reap a harvest of ducats, she repairs to the sea shore, taking with her an unlimited supply of bleaches, freckle chasers, etc. She meets an old friend there in the person Geraldine Bohemia, a comic opera prima donna, and becomes involved with two old rounders who fall in love with her. She delivers a lecture on "beauty" and is besieged by throngs of women, all desiring to become beautiful. After she dispenses of her lotions, Julia returns to New York, taking with her the chorus girls she has engaged to demonstrate her nostrums.

The second act takes place in the Beauty Emporium. The girls pose as rejuvenated bags, and Julia is various characters present themselves, and are quickly transformed into beings of ravishing beauty; and the fun reaches its height when Walsingham Gayboy, a giddy bachelor, submits to a massage and face steaming treatment at the hands of the intrepid Julia. The frivolous rounder is almost boiled alive, and escapes from her only to fall into the clutches of the physical culture girls, who subject him to more rough treatment.

The cast is a long one and is headed by Della Stacy, the well known comedienne. The chorus is composed of 40 of the most beautiful women seen in musical comedy. Mr. Wright was four months in making

the selections, as he determined that his show girls should be consistent with the name of the piece. A fortune has been expended on the scenery and costumes. The latter are especially handsome. The evening gowns worn by the show girls are worth importations, and from three to eight hundred dollars a piece. One of the features of the production is the "Dance of all Nations," led by the famous Cardew Sisters, assisted by a "pony ball" of twenty-four girls. Another feature is the "culture drill," given by the chorus with illuminated Indian clubs on a darkened stage.

The music is bright and catchy, and already many of the songs have become popular. "Loved One, So Pure and Tender," "Where Was Moses When the Light Went Out," and "The Lobster and the Mermaid," are the most melodious.

"Down and Up" is a man who boasts that "he knows a glass of wine" invited a few select friends to dinner. In the midst of the meal his Irish servant brought up a very old-looking bottle of wine. "Ah, John," said the master, "you forgot to take the cobweb off this bottle before you brought it up." To his surprise and discomfort John replied: "Sure, sir, I thought ye didn't want 'em taken off, after putting 'em on so careful!"—Spare Moments.

ENGULFED IN A DISUSED MINE

Man Walking in Henley, England, Sinks to His Death.

London, Dec. 14.—There is consternation in the town of Henley in Staffordshire. A man while walking through a street suddenly sank through the footway into the earth and was engulfed in a coal mine long since disused. All attempts to rescue him were fruitless, owing to the poisonous gases. A funeral service was held near the spot where the man sank. It was attended by the mayor and the members of the corporation. The town council is now facing the question of how to deal with the disused coal pits which undermine the district.

To Suppress Boll Weevil.

Haton Rouge, La., Dec. 14.—The house of the state assembly passed a bill looking to the suppression of the boll weevil. It provides for the formation of a crop pest commission of five members, who will have \$25,000 to use in its work, and plenary power to act.

BALLINGTON BOOTH IS HURT

Leader of Volunteers of America Slips and Injures Knee Again.

Watertown, Conn., Dec. 14.—As the result of a fall, Gen. Ballington Booth of the Volunteers of America may be forced to abandon his plans and remain at home during the holidays. After an address in the opera house, Gen. Booth left the stage to meet the audience and in stepping back to the platform slipped and fell, injuring the same knee that he injured recently.

Pat Turns the Table.

A man who boasts that "he knows a glass of wine" invited a few select friends to dinner. In the midst of the meal his Irish servant brought up a very old-looking bottle of wine. "Ah, John," said the master, "you forgot to take the cobweb off this bottle before you brought it up." To his surprise and discomfort John replied: "Sure, sir, I thought ye didn't want 'em taken off, after putting 'em on so careful!"—Spare Moments.

ENGULFED IN A DISUSED MINE

Man Walking in Henley, England, Sinks to His Death.

London, Dec. 14.—There is consternation in the town of Henley in Staffordshire. A man while walking through a street suddenly sank through the footway into the earth and was engulfed in a coal mine long since disused. All attempts to rescue him were fruitless, owing to the poisonous gases. A funeral service was held near the spot where the man sank. It was attended by the mayor and the members of the corporation. The town council is now facing the question of how to deal with the disused coal pits which undermine the district.

To Suppress Boll Weevil.

Haton Rouge, La., Dec. 14.—The

house of the state assembly passed a bill looking to the suppression of the boll weevil. It provides for the formation of a crop pest commission of five members, who will have \$25,000 to use in its work, and plenary power to act.

Sheriff Is Sent to Jail.

Grand Forks, N. D., Dec. 14.—Judge

Amidon in the Federal court here sentenced Sheriff Scovell of Minot to ninety days in jail for contempt of court in approaching a juror, who had been called to serve in a case pending in that court.

Shoots Himself for Love.

Pittsburgh, Pa., Dec. 14.—Henry

Merck, first violinist in Victor Herbert's orchestra, shot himself fatally over love for Amy Bussart, who has been singing with the orchestra. His wife and two children are believed to be in Sweden.

## BULLETIN BUBBLES.

A familiar saying—"Hello!"  
Made over—a roof garden hit.  
A snake is never rattle-headed.  
Sometimes the cobbler can't tap so well as the doctor.  
In a street car a man's selfishness is often deep-seated.

The female dancing team is composed of step "sisters".

The boot and shoe seller doesn't object to slippery customers.

People with clinging disposition do not always stick to the truth.

No, "blood money" is not necessarily composed of red cents.

The acrobat doesn't understand his business until he tumbles.

It takes more than the wind to make a budding mustache full-blown.

Few would-be poets can say, "My lines have fallen in pleasant places."

We may not thoroughly appreciate the grass, but nature gives it its dew.

Some men are so shallow that there is nothing deep about them except debt.

As the kleptomaniac thought in the candy store, "Stolen kisses are sweetest."

"Keep on the Sunny Side" isn't the song for a woman who is forty in the shade.

Perhaps the ocean murmurs because it doesn't know what has come across it.—Philadelphia Bulletin.

## SOME SELF-MADE MEN.

Now and then we encounter a natural-born iceman.

Some men always seem so very new and others so very parvenu.

The self-made man is often a very good sort—when he's finished.

He rarely has the gout, but he sometimes suffers from over-exertion of the egotism.

And oh, if he could only remember that there are always others just as insignificant as himself!

Somehow the ears of a self-made man often have the look of having been stolen from a grabbag.

The self-made man escaped one great affliction; he didn't have a bacalaureate sermon preached at him.

We occasionally see an architect of his own fortune who seems to have mislaid the blueprint when he was about half way through.—Puck.

## SOME "DON'TS" FOR HUSBANDS.

Don't treat her as if you had stooped in marrying her.

Don't correct or snub your wife in the presence of strangers.

Don't allude to your mother's talent for housekeeping with a sigh.

Don't forget to notice and criticize kindly her new dresses and hats.

Don't neglect to express your pleasure when she makes your favorite pudding.

Don't worry her to death because your paperknife or favorite stud has been mislaid.

Don't suppose that she is indifferent as to whether you remember her birthday or your wedding day.

Don't forget to use occasionally some of those endearing epithets which were always on your lips before marriage.

## SPLINTERS.

Speak softly—the lovesick youth.

The port side of a vessel is not necessarily the captain's wine cellar.

All is not gold that glitters, but lots of people don't know the difference.

The man who denies himself to save money usually spends it to build up his constitution.

Benners—Wonder what makes Smith look so lonesome since he was married?

Jenners—Hasn't any place to call on Sunday evenings.—Philadelphia Telegraph.

## UNHAPPINESS DISPELLED.

Men and Women Unanimous About It.

Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the misers of both sexes, to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germs or microbes that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a now formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

## Schlitz Beer

## RECEIVES WORLD'S HIGHEST ENDORSEMENT

European government scientist awards Schlitz the highest honor.

From Weihenstephan, Bavaria, the most renowned school of brewing in the world, comes this triumph for Schlitz.

The Beer That Made Milwaukee Famous pronounced best American beer by the Bavarian Government's famous scientific brewer, Prof. Dr. Hans Vogel, Director of the Scientific Station for the Art of Brewing, subventioned by the Royal Bavarian Government. Bavaria is the cradle of the art of brewing.

We spend fortunes on cleanliness.

We clean every tub, every boiling vat, tank or barrel, every pipe and pump, every time we use it.

We bore wells down 1400 feet to rock for pure water.

We cool the beer in filtered air.

We filter the beer by machinery.

We store Schlitz beer for months in refrigerating rooms, until it is well fermented—until it cannot cause biliousness.

PROF. DR. HANS VOGEL

ACADEMICAL DIRECTOR

WEIHENSTEPHAN, Nov. 22, 1903.

Schlitz Brewing Co., Milwaukee, U. S. A.

Through the courtesy of Commerzienrath (Counsellor of Commerce) Dr. Datterer, I have received several bottles of your beer.

I have not only partaken of same, but have also made a searching chemical analysis, the result of which I enclose.

The analysis, as a matter of course, can give no idea of an important feature, the flavor of the beer.

I frequently receive samples of American beers for analysis, but I can truthfully say without flattery, that I never drank a better American beer than yours.

The beer tasted full (round) and fresh, and no trace of the usual disagreeable pasteurization flavor was discernible.

Once more permit me to express my recognition.

Very respectfully,

HANS VOGEL.

Schlitz

The Beer That Made Milwaukee Famous.

Time-tried and true.  
A record of healing for sixty years.

Good for Man or Beast. Cures hurts and pains anywhere in the body or on the surface.

Penetrates as no other liniment can penetrate. Sinks right into the fevered skin and takes out pain. Good for everything that walks.

THE GREATEST EMERGENCY LINIMENT KNOWN.

Keep it in your house.  
Keep it in your shop.  
Keep it in your office.  
Keep it at your stables.  
Keep it at your car barns.

We Will Buy

A 50c. Bottle of Liquozone and Give it to You to Try.

Liquozone—liquid oxygen—is the only product that can kill germs in the body without killing you. No man knows any other way to destroy the cause of any germ disease.

It is new to America, and millions who don't know of it. For that reason we make this remarkable offer. We will buy the first bottle and give it to you if you need it. We will do it willingly, gladly, to convince you at once and forever that Liquozone does kill germs.

We spend 14 days in making each bottle of Liquozone, and the result is liquid oxygen—the best thing in the world for you; yet certain destruction to disease germs, wherever the Liquozone-laden blood goes.

We Paid \$100,000

for the rights to Liquozone for the United States. We tested this product for years in the most difficult germ diseases; then we bought the rights for the highest price ever paid for a scientific discovery.

We paid that price because Liquozone does what all the skill in the world cannot do without it. Any drug that kills germs is a poison to you and it cannot be taken internally. The best physicians in the world over employ Liquozone alone for germ troubles; and any physician who doesn't is almost helpless in any disease.

Asthma, Bronchitis, Bright's Disease, Coughs—Colds, Colic—Croup, Constipation, Diarrhoea, Dysentery, Dyspepsia, Fevers—Gall Stones, Gout, Gonorrhœa—Gleet, Herpes Zoster, Hydrocephalus, Inflammation, Jaundice, Liver Troubles, Malaria—Malaria, Many Heart Troubles, Piles—Pleurisy, Rheumatism, Skin Diseases.

Hay Fever—Influenza, Kidney Diseases, La Grippe, Liver Troubles, Malaria—Malaria, Many Heart Troubles, Piles—Pleurisy, Rheumatism, Skin Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help overcome the germs, and such results are indirect and uncertain. Liquozone kills the germs; wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

**BLIZZARD SWEEPS  
OVER WEST AND NORTH**

St. Paul Reports the Thermometer to be 24 Degrees Below—Car Ferries Are Ice-Bound.

Chicago, Dec. 14.—The blizzard which swept over Chicago Saturday night and the zero weather of Sunday extended west and north, being most severe in the vicinity of St. Paul, where the thermometer registered as low as 24 degrees below zero.

Nebraska was exceedingly cold, but the absence of wind helped matters considerably. The weather was moderate Sunday afternoon.

Central Wisconsin and northern Michigan were in the midst of veritable blizzards with all their disagreeable features of snow, sharp winds, and extreme cold.

Great stretches of country in that area are at a standstill.

In southern Michigan the snow was from eight to twenty inches deep on the level and caused no end of discomfort. At New Buffalo two passenger trains were snow bound for ten hours and the dining car was emptied by the hungry passengers.

At the Zoo everything is frozen up solid and the car ferries have been unable to move. At Houghton, Mich., the same conditions prevail, and business practically will be stopped unless the weather moderates.

At all points railway traffic is delayed, and in most of the towns street car traffic has been conducted in a spasmodic manner.

The predictions are for moderating weather.

**PRISONER HOLDS UP SHERIFF**

Escaped Convict Robs Officer and Station Agent and Escapes.

Galena, Kas., Dec. 14.—Charles Rain, sheriff of Cherokee county, was held up and robbed in the depot at Baxter Springs, Kas., by Clarence Cunningham, an escaped prisoner from the Columbia, Mo., jail, after he had placed Cunningham under arrest. Having recognized Cunningham the sheriff followed him into the depot and ordered him to surrender. Cunningham did not move, but a pal at his side immediately pointed a revolver at the sheriff, who thereupon threw up his hands. Rain was relieved of his watch, revolver and money. Cunningham and his companion then robbed the station agent, took a team of horses and a buggy from a livery stable and escaped.

Man Is Blown to Atoms.  
Kenova, W. Va., Dec. 14.—At a Norfolk & Western railway camp on the Big Sandy river here workmen were thawing dynamite when an explosion occurred. John Black, a section hand, was blown to atoms. Charles A. John-

son, a contractor, was fatally injured. Others were slightly hurt.

**Jail for Saloon Smasher.**  
Topeka, Kan., Dec. 14.—The Supreme court has upheld the thirty-day jail sentence imposed by the Shawnee County District court upon Blanchard Bolte, a disciple of Carrie Nation, for smashing the plate-glass fronts of seven Topeka joints a year ago and Miss Bolte must go to jail.

**Beethoven's Home to be Wrecked.**  
Vienna, Dec. 14.—The house in which Beethoven lived during the two last years of his life and in which he breathed his last during a violent thunderstorm March 26, 1827, is to be pulled down and a modern mansion will be built on the site.

**Election Stabbing.**  
Cairo, Ill., Dec. 14.—In a quarrel over the judicial election at Harrisburg James Stout stabbed and fatally wounded Deputy Sheriff D. D. Lockwood.
